FABRICATION FRANCE

COREP est fabricant et CRÉATEUR de Luminaires en France, depuis 1970 à Bègles en Gironde.

COREP développe des gammes inspirées des dernières tendances, des nouveaux usages et des besoins de ses différents marchés.

À ce titre, son équipe de designers met au point des collections spécifiques chaque année. Afin de protéger et pérenniser ce savoir-faire, COREP dépose ses catalogues et ses modèles pour mieux garantir l'originalité des produits proposés. COREP se réserve ainsi le droit d'utiliser ces outils et son antériorité à des fins légales pour toujours mieux satisfaire ses clients et leur assurer la primeur et la différence de ses gammes.

COREP souhaite illustrer plus que jamais son statut de créateur de Lumières.

COREP is manufacturer and designer of decorative lights in France, since 1970, in Bègles in Gironde.

COREP has been developing ranges inspired from last trends, new uses and needs for different markets.

As such, its team of designers develops specific collections each year. To protect and perpetuate this know-how, COREP registers its catalogues and its models to assure the originality of its products. COREP reserves the right to use those means and its anteriority to legal purposes, in order to even better satisfy its customers and to guarantee them scoops and differences in its ranges.

COREP wishes to materialize more than ever its status of designer of Lights.

Une collection de 14 formes d'abat-jour

A collection of 14 lampshades designs

ABAT-JOUR RÉVERSIBLE

REVERSIBLE LAMPSHADES

Corep offre la possibilité sur certains produits de les utiliser en abat-jour sur un pied de lampe, ou en suspension :
Corep offers the possibility for some products to use them as lampshades on a lamp base or suspended :

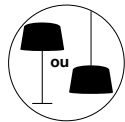

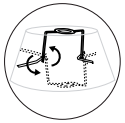

- soit les produits ont une carcasse réversible (cf réf 1965) qu'il faut manipuler très simplement, pour permettre le changement de position. Vous trouverez le picto suivant :

- either the products have a reversible frame (see ref 1965) which should be handled very simply, to allow the change of position, and you will find the following pictogram :

- soit les produits ont une forme symétrique qui leur permet en inversant simplement leur sens, d'être utilisés en abat-jour ou suspension, vous trouverez le picto suivant :

ex : le cylindre réf 1056 ou le carré haut réf 1197.

- or the products have symmetrical shape that allows them to be used as lampshades or suspended simply by reversing their direction eg: cylinder ref 1056 or le top square ref 1197. You will find the following pictogram :

FIXATION HAUTE E14

Cela concerne les références 1001 ø14, 1213 ø14, 1420 ø14.
This concern references 1001 ø14, 1213 ø14, 1420 ø14.

Choisir la bonne taille

Choose the good size

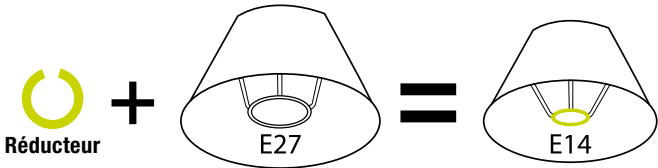

> Les règles à respecter

LES PROPORTIONS DOIVENT ÊTRE EQUILIBRÉES
THE PROPORTIONS MUST BE COUNTERBALANCED

POINT DE REPÈRE : LA HAUTEUR DOIT ÊTRE AU MOINS ÉGALE AU DIAMÈTRE DE L'ABAT-JOUR.
POINT OF LANDMARK : THE HEIGHT OF THE BASE MUST BE AT LEAST EQUAL TO THE DIAMETER OF THE LAMPSHADE.

PENSEZ A VÉRIFIER QUE LA BAGUE DE LA CARCASSE DE VOTRE ABAT-JOUR S'ADAPTE BIEN AUX DIMENSIONS DE LA DOUILLE DU PIED CHOISIE.
DANS LE CAS CONTRAIRE COREP VOUS PROPOSE DES RÉDUCTEURS (RÉFÉRENCE 10030) AFIN DE DIMINUER LA BAGUE DE E27 À E14.
THINK OF CHECKING THAT THE RING OF THE CARCASS OF YOUR LAMPSHADE ADAPTS WELL TO THE DIMENSIONS OF THE CASING OF THE SELECTED FOOT.
IN THE CONTRARY CASE COREP YOU PROPOSE REDUCING (REFERENCE 10030) IN ORDER TO DECREASE THE RING OF E27 WITH E14.

REDUCTEUR

Quand le diamètre de la carcasse ne s'adapte pas au pied de lampe, Corep vous propose des produits qui permettent par leur structure en PVC, d'obtenir une ouverture plus grande (E27) en cassant la première bague dédiée au E14 : cela concerne les références 1037 ø22, 1636 ø22, 1173 ø22. Sinon, Corep vend des réducteurs (réf 10030, à la fin de la partie Suspensions de notre catalogue Collection Luminaires 2016) pour adapter le diamètre de la carcasse à celui du pied.

When the diameter of the frame does not fit the lamp base, Corep offers products that, by their PVC structure, make it possible to obtain a larger opening (E27) by breaking the first ring designed for E14 : this concerns references 1037 ø22, 1636 ø22, 1173 ø22. Otherwise, Corep sells adapters (ref 10030, End of the Suspensions part of our Lighting Collection 2016 catalogue) to adapt the diameter of the casing to the lamp base.

New

Nouveauté 2019.

2019 new product.

X1

Colisage : Unité de commande.

Packing : Minimum order quantity.

Adaptable DCL : (dispositif de connexion luminaire). Le produit peut être double raccordement : boîtier de connexion standard ou DCL.

DCL adaptable (device light connect). The product can be double connecting : case of standard connexion or DCL.

Produit équipé d'un port USB à rechargement pour smartphone.

Product equipped with a smartphone USB charging port.

Système "TOUCH ON/OFF". Ne fonctionne pas avec une ampoule CFL. Fonctionne avec une ampoule LED.

"TOUCH ON/OFF". Doesn't work with a CFL bulb. Work with a LED bulb.

Système "TOUCH", lampe tactile qui s'allume au toucher, 3 intensités lumineuses. Ne fonctionne ni avec une ampoule fluocompacte, ni une ampoule LED.

"TOUCH" system, tactile lamp which light on touched, 3 luminosity settings. Doesn't work with a fluocompact and LED bulb.

Produit équipé d'un variateur. Ne fonctionne pas avec une ampoule CFL. Fonctionne avec une ampoule LED dimmable.

Product equipped with a dimmer. Doesn't work with a CFL bulb. Works with a dimmable LED bulb.

Classe 1 : Présence d'une borne de terre pour le raccordement impératif à la terre.

Presence of an earth terminal for required earthing connection.

Classe 2 : Double isolation dans toutes les parties et sans dispositif de mise à la terre.

Double insulation in all parts and without earthing device.

Classe 3 : Alimentation très basse tension (12 ou 24V).

Very low-voltage power supply (12 or 24 V).

Corep est certifiée FSC® (Forest Stewardship Council®) depuis janvier 2014. Il s'agit d'un label environnemental qui garantit que le bois utilisé provient de forêts bien gérées de façon responsable. Ce label est apposé sur l'emballage, ou sur une étiquette collée ou accrochée aux produits concernés. Nos produits certifiés sont mentionnés dans notre catalogue par le logo FSC®.

Corep is FSC® certified since January 2014. This environmental seal guarantees that the wood used comes from sustainable managed forest. This seal is put on the packaging or on a sticker label or even hung up to the concerned products. Our certified products are noted in our catalogue with the FSC® logo.

Produit fabriqué en France.

Product made in France.

Abat-jour fabriqué en France.

Lampshade made in France.

Livré avec cordon électrique.

With electric fitting.

Livré sans cordon électrique.

Without electric fitting.

DEEE - Ce pictogramme signifie que l'équipement ne peut être jeté avec les autres déchets, qu'il fait l'objet d'une collecte sélective en vue de sa valorisation, réutilisation ou recyclage. Le montant de l'éco participation est indiqué sur notre tarif.

DEEE - This pictograph means that the fittings can't be dropped together with the other waste, that it is subject to a selective collection so as to be valorised, reused or recycled. The amount of the eco participation is indicated on our tariff.

Sigle CE - Ce pictogramme signifie que le produit est conforme aux normes européennes en vigueur.

EC symbol: product compliant with European standards in force.

Taux de mercure *Mercury rate*

Temps d'allumage *Time of ignition*

Nombre d'allumage *Number of ignition*

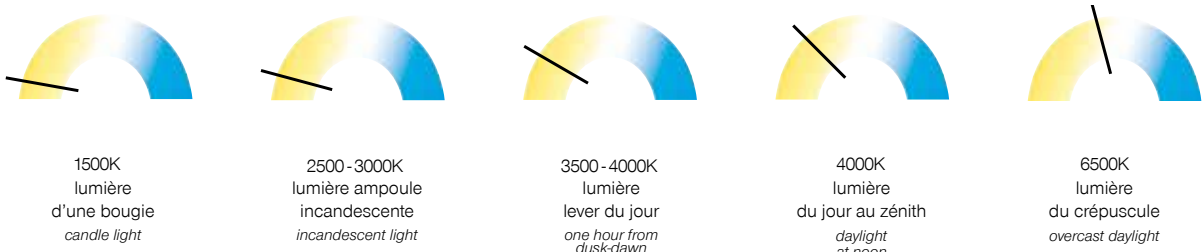

Nombre de lumens *Number of lumens*

Verre soufflé à la bouche *Glass mouth blown*

Température de couleur *Colour temperature*

TEMPÉRATURE DE COULEUR : couleur apparente de lumière émise. Elle s'exprime en degrés Kelvin (°K). Elle permet de classier les lampes en lumière chaude <3000°K, lumière intermédiaire : 4000°K et lumière froide > 4000°K.

COLOUR TEMPERATURE: colour visible in emitted light. This is expressed in degrees Kelvin (°K). It enables lamps to be classified in terms of warm light: <3000°K, intermediate light: 4000°K and cool light: > 4000°K.

Un éclairage optimisé *An optimized lighting*

Pour un éclairage optimisé et une meilleure compréhension, désormais nous indiquons la puissance maximum autorisée. Nous vous laissons le libre choix d'utiliser l'ampoule de votre convenance. Cependant nous vous indiquons la correspondance LED conseillée.

For an optimized lighting and better understanding, now we show the maximum power allowed. We leave you the free choice to use the bulb of your convenience. However we advise you the recommended LED correspondence.

A noter que les ampoules LED sont une technologie évolutive au fil du temps. Le nombre de lumens et de Watt peuvent varier en fonction des fabricants.

Note that LED bulbs are a progressive technology over time. The number of lumens and watt may vary depending on the manufacturer.

TABLE DE CORRESPONDANCE *CORRESPONDENCE TABLE*

25W => 200-350 lm	40W => 350-450 lm	60W => 550-650 lm	75W => 700-800 lm	100W => 950-1050 lm
-------------------	-------------------	-------------------	-------------------	---------------------

L'emballage *Packaging*

La plupart de nos produits (sauf certains cannages ou produits en métal) sont emballés avec un film thermo-rétractable anti-statique ou boîte couleur qui les protège de la poussière et des marques dues aux manipulations des clients.

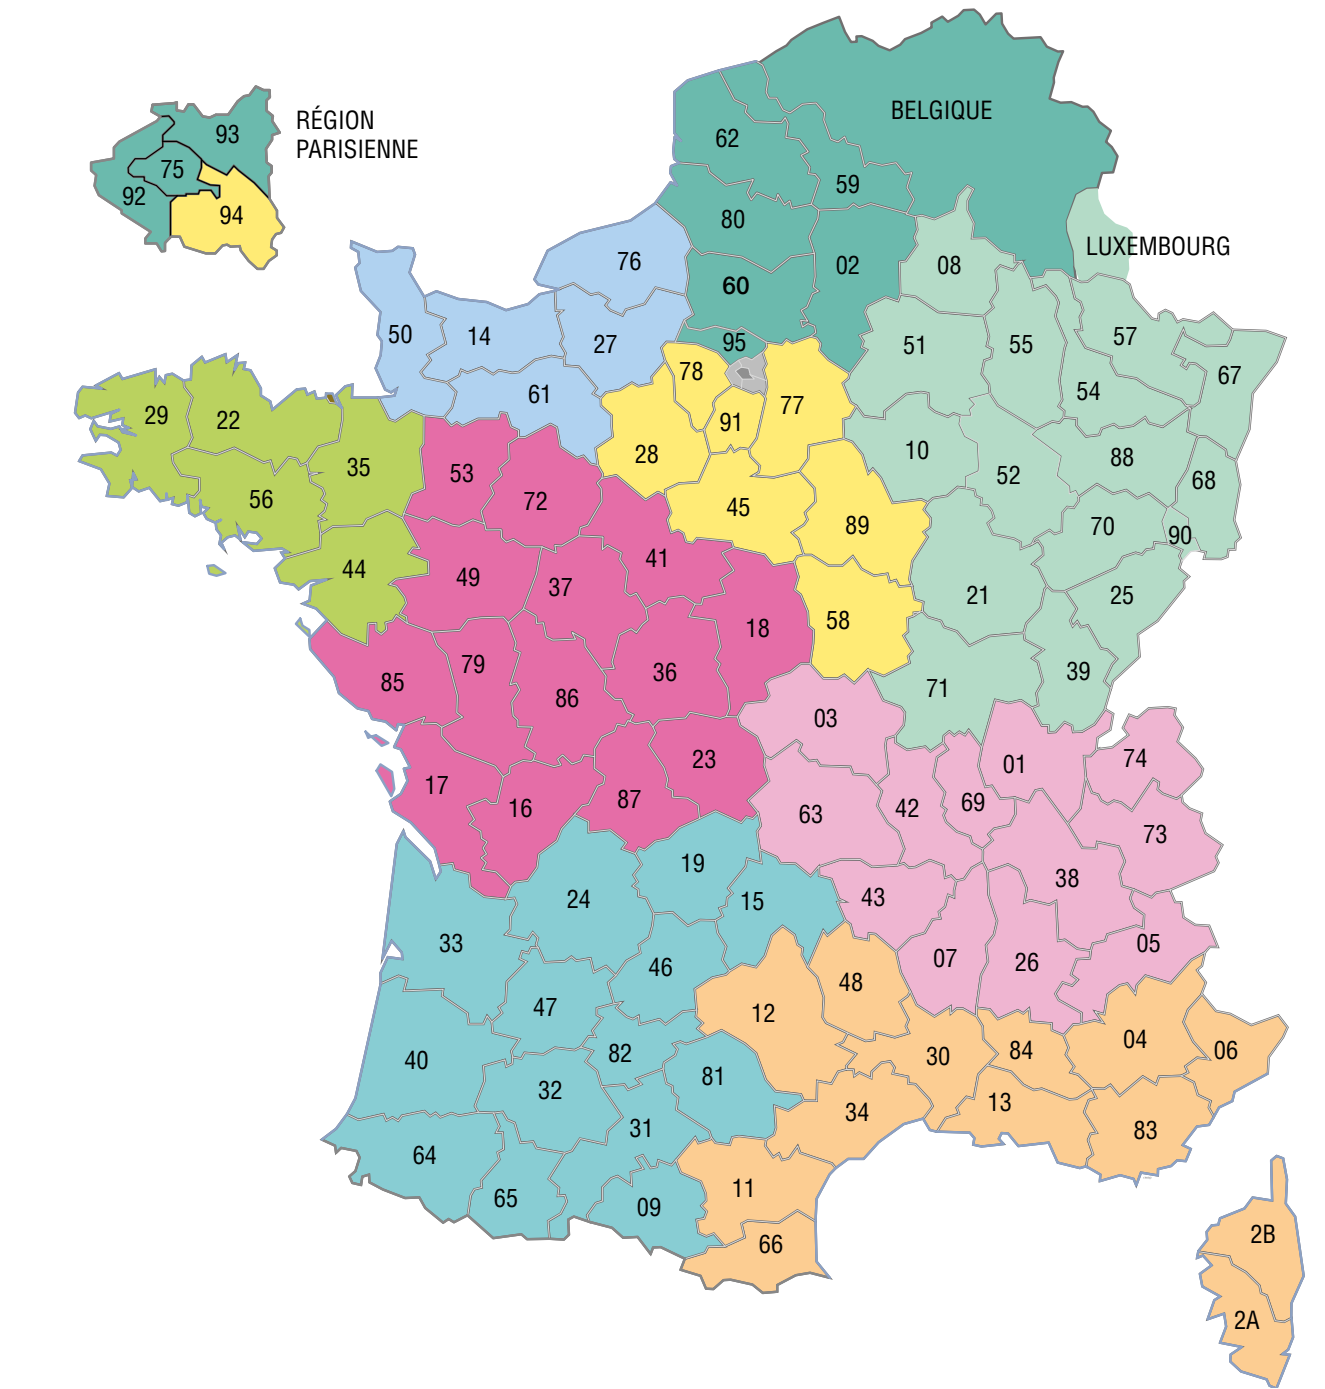

The majority of our products (except some cane or metal products) are packaged with a thermo retractable anti static film or color box which protects them against dust and marks which can occur due to customer handling.

Normes *Standards*

Tous nos produits respectent la norme européenne en vigueur pour les Luminaires : NF-EN60.598-1 Nos produits respectent également les normes REACH, ROHS, ERP... Ils respectent également le règlement délégué (UE) N°874/2014 de la commission du 12 juillet 2012, complétant la directive 2010/30/UE du parlement européen et du conseil en ce qui concerne l'étiquetage énergétique des lampes électriques et des luminaires.

All of our products adhere to the current European standard for lighting, NF-EN60.598-1 They also meet the REACH, ROHS, ERP... standards. They also comply with the delegated regulation (UE) N°874/2014 from the 12 July 2012, that complete the 2010/30/UE directive from the european parliament and from the council regarding the lightings energy labelling.
