

Libbey for Life

COLLECTION 2017-2018

“Libbey provides the glassware that as a bartender you can work with confidently and comfortably while at the same time providing your guest with glassware they envy and wish they can take home”

Wouter Bosch, Rosalia's Menagerie, Amsterdam

Libbey for Life

Libbey for Life

Libbey is the glassware for professionals. It has been around since 1818 and has developed into an authentic brand with clear roots. That development process never ends; Libbey is constantly reinventing itself.

Libbey feels very strongly about quality, as witnessed by its outstanding product guarantees. Also its design is distinctive, timeless and creative. And above all Libbey glassware is strong and lasts a particularly long time, even when used frequently.

Worldwide, Libbey has established a solid reputation as the glassware for professionals. Professionals can spend an entire career trusting on them. Professionals choose Libbey. Libbey for Life!

LIBBEY®
+DuraTuff®

Duratuff

The Duratuff process is performed only on the upper portion of the glass increasing its resistance to thermal and mechanical shock.

Why are Libbey's Processes tough To beat?

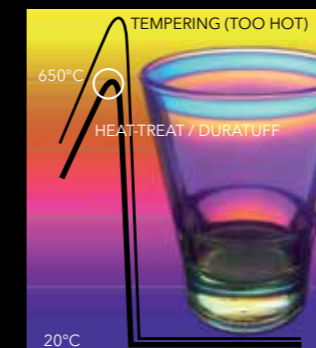

BARWARE TOUGH

Libbey's DuraTuff® treatment is a super strengthening thermal afterprocess for "pressed" tumblers and stemware. A similar process is used on blown ware products. Those item numbers are designated with an "HT". The Duratuff process is performed only on the upper portion of the glass increasing its resistance to thermal and mechanical shock. It produces some of the most durable glassware in the industry. It's barware tough.

What is the difference between DuraTuffing and tempering? Libbey's exclusive processes were developed not only to reduce breakage and chipping, but to also change HOW a glass breaks - an important safety consideration in foodservice operations. Fully tempered glass is unstable. Inappropriately tempered glassware shatters in an explosive manner. It breaks into smaller jagged pieces that can travel long distances potentially contaminating ice bins or salad bars.

The need for product replacement due to breakage and chipping affects your bottom line. Libbey's toughening processes produce glassware that stands up to more servings which means more profits for you.

You can count on Libbey to deliver a smarter, safer, more durable and profitable glass every time - and that's a tough combination to beat!

TUFFGLASS BY LIBBEY

Libbey's heat treating process quickly raises the temperature of glass from about 20° C to almost the melting point (650° C) then quickly cools the glass in a controlled manner. The result can be seen in this polarized light photo which shows when the internal strength of glass has been increased.

Treating just the upper third of the glass at a lower temperature than tempering puts less stress on the glass and positively affects HOW the glass breaks as well as improving overall durability.

LINQ, THE NEW STANDARD

SETTING A NEW STANDARD IN STACKABLE GLASSWARE.

The newly-created LinQ series may well be the ultimate high-end stackable glass. Naturally, it has all the functional qualities you'd expect: superb stackability, the versatility to measure up in any surroundings, and the DuraTuff® strength to withstand the roughest treatment time and time again.

But what really sets it apart? In a word, style. The translucent grey finish... the subtly sophisticated design... the timeless look-and-feel... Together they add just that extra dash of elegance to any drink.

LinQ is the stackable series you've been waiting for. Satisfying all your most demanding professional requirements, while surpassing your highest aesthetic expectations.

RIM TOUGHENED DURATEMP EDGE

Libbey's SheerRim D.T.E.® (Dura Temp Edge) stemware and tumblers feature a beadless edge which is first cracked-off then polished to produce a fine, yet durable edge. This creates a combination of elegance and affordability in glassware for operators looking to upgrade their beverage service, while still maintaining longer service life.

✘ SheerRim D.T.E.®

The SheerRim D.T.E.® guarantee covers all products with a crack-off rim. If the rim of any glass covered by the guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

SheerRim D.T.E. glassware includes: Envy • Endessa • York • Chicago • Cidra • Stark

BELL

● Safedge® Rim Guarantee ★ Heat-Treated ✕ Sheer Rim / D.T.E.®

Examples of chipped ware covered by Libbey guarantees

CHIPPED EDGE

CHIPPED FOOT

Examples of broken or cracked ware NOT covered by Libbey guarantees

BROKEN EDGE

CRACKED EDGE

BROKEN FOOT

For over 70 years, Libbey's proven commitment to quality has been backed by our well-known guarantees.

TOUGHSTUFF WE GUARANTEE IT!

● Safedge® Rim Guarantee

If the rim of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/ distributor from whom it was originally purchased.

■ Safedge® Rim&Foot Guarantee

If the rim or foot of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer / distributor from whom it was originally purchased.

✘ SheerRim D.T.E.®

The SheerRim D.T.E.® guarantee covers all products with a crack-off rim. If the rim of any glass covered by the guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

★ Heat-Treated

Libbey's heat-treated glassware offers increased resistance to thermal and mechanical shock. This secondary process on 'blown' glassware is performed only on the upper portion of the glass where most abuse occurs.

Of course, these guarantees do not cover breakage.

RESTAURANT

Libbey for Life

Master's RESERVE™

BRINGING FORTH THE INSPIRATION ...

Master's Reserve™ is the culmination of a fierce, focused passion: **To push the ingenuity of America's Glassmaker™ beyond world-class levels.**

Fully reimagined and re-engineered from furnace to finishing, Master's Reserve is like no other glassware in Libbey's industry-leading offering.

One glance at its optical purity and dazzling sparkle, one feel of its precise balance in the hand and it's obvious this ambitious vision has been realized.

Master's Reserve is designed to deliver on restaurateurs' dual desires - exquisite presentation and superior service life.

This unparalleled performance is backed by a remarkable HD2 Rim and Foot Guarantee. If the rim or foot of any stemware item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

No other glassware manufacturer offers a lifetime guarantee on rim and foot chipping.

WHISPER THIN, BEADLESS EDGE

THE EXCLUSIVE HD2 RIM OFFERS HIGH DEFINITION AND HIGH DURABILITY WITH A DEEP DURATEMP TREATMENT FOR LONGER SERVICE LIFE.

STRONG, SLENDER WALLS

STIFFENING PROVIDES MECHANICAL STRENGTH TO THE EXQUISITELY SLIM SIDE WALLS.

SEAMLESS BOWL AND STEM

THE SEAMLESS TRANSITION CREATES A SLEEK, PROVOCATIVE LOOK WHILE DRAMATICALLY ENHANCING SERVICE LIFE.

UNPRECEDENTED FLATNESS

THE SIGNATURE FOOT ENABLES A STRONG, STABLE AND POSITIVELY STUNNING PRESENTATION.

PURELY RADIANT SHINE

CLEARFIRE™ GLASS, FORMULATED WITH OUR HIGH BRILLIANCE SODA LIME, SPARKLES WITHOUT POTENTIALLY HARMFUL METALS.

TALL, SVELTE STEMS

ELIMINATING SEAMS AND JOINTS IN THE STEMS PROVIDES LONGER LIFE AND MORE TORQUE (TWIST) RESISTANCE.

MODERNIST

← guaranteed against unsightly chipping

TWO-PIECE ELEGANCY

The combination of elegance and affordability is perfect for operators looking to upgrade their beverage service while still maintaining the durability and safety necessary in a foodservice operation.

● Safedge® Rim Guarantee

If the rim of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

✕ SheerRim D.T.E.®

The SheerRim D.T.E.® guarantee covers all products with a crack-off rim. If the rim of any glass covered by the guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

Safedge Rim guarantee includes: Endura • Fortius • Spirit • Grande Collection

One-piece stemware includes: Catalina • Embassy • Perception • Teardrop • Estate • Sonoma

ONE-PIECE TOUGH

One-piece stemware is one of Libbey's best selling stemware products for good reason. It is specifically designed for high-turnover, fast-paced restaurant operations where safety and durability are of utmost importance.

One-piece stemware is inherently stronger than other stemware. Formed from one piece of glass, there are no weak points where stem and/or foot are joined with bowls. Libbey's precision burners produce a rim with a minimum bead and a rounded foot that is more resistant to unsightly chipping. The glass is also designed to be thicker at the contact points for added strength needed in rigorous handling. Longer product life means more savings and more profit per serving for operators. In fact, your investment starts paying back profits after just one serving. And Libbey feels so strongly about one-piece construction, it has backed it with the exclusive Safedge® Rim and Foot guarantee.

One-piece stemware strikes the perfect balance of weight, functionality, and aesthetics. It's the proven leader in the industry for durability and reliability.

■ Safedge® Rim&Foot Guarantee

If the rim or foot of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer / distributor from whom it was originally purchased.

HANDMADE [⊖] ARUBA

This item is handmade. As such, some small bubbles and other dimensional variations will be present. The capacities are noted as minimum ounce capacities and could vary upward considerably. They should not be used as a standard of measure.

These variations are inherent in the art of handmade glassware and should not be seen as defective. Please consider this prior to purchasing. Handwashing is recommended for handmade items.

CAREFUL HANDLING
AND USE IS REQUIRED WITH
FINE HAND-MADE GLASSES

SHORTY

IMPRESS WITH SMALL SERVES

The Libbey Shorty range accommodate smaller portions, so serves such as welcoming drinks and palate refreshers between drinks fit perfectly. Simply provide a complementary glass of soda or sparkling wine without worrying about affecting the bottom line; the cost is pennies, while the guest is impressed by the hospitality.

IMPRESS WITH COCKTAIL FLIGHTS

Possibly the most obvious use for driving profitability with the Libbey Shorty range is to reduce portion size while offering customers a broader taste experience. The 'flight' of cocktails embraces this concept like no other. Guests get to enjoy greater variety of a bar's offering, without health concerns and lifestyle limitations.

IMPRESS WITH FOOD PAIRINGS

The Libbey Shorty range reduces the cocktail portion down to canapé sizes and allows food and drinks to be presented side by side. This embellishes the paring, and can also help to establish a theme to truly impress the guest.

SHORTY

RETRO COCKTAIL REVIVAL

Libbey proudly presents a collection of decorated glasses, which fit the upcoming nostalgia for the pop era (late '70s to early '90s).

Those decades of craziness and exaggeration seem to bring back old memories across a wide part of the world population. And cocktails are no exception.

In those times of excesses considered, by most bartenders, the dark ages of the cocktail scene, drinks should be colorful and eye-catching.

But, nowadays, innovative bartenders and mixology experts are reinventing some of the unloved retro cocktails.

Kitsch and tacky are currently synonyms of trendy.

PREMIUM PLASTIC DRINKWARE

The Libbey Infinium premium plastic range allows you to bring a more upscale, trendy vibe to beverage service where plastic is the preferred option.

Infinium products are made of 100% BPA-free Tritan copolyester which mimics the clarity of glass and is virtually unbreakable. Infinium products will retain their beauty and durability longer than acrylic, SAN or polycarbonate products.

With Infinium, you and your guests can relax as you express your creativity in plastic drinkware with industry-leading durability.

Infinium provides the kind of replacement-reducing, stress-relieving performance other plastics simply cannot match:

Tough

Highly resistant to impacts, cracking crazing and shattering.

Dishwasher durable

Maintains a "like new" appearance even after hundreds of cycles.

Industry-leading resistance

Resists virtually all stains, odors and tainting of beverage flavors.

Temperature resilience

Able to withstand extreme temperatures up to boiling or freezing points (212°F/100°C to 32°F/0°C).

Innovative design

Space-saving tumblers stack without sticking and inhibit water pooling on the bottom.

Infinium is the perfect choice for:

Festivals
Boating
Poolside

BEERS

Libbey for Life

"We use one of Libbey's glasses as our signature glass for ten years now. It is a first-class glass, long-living but elegant with unbeatable haptics."

Theerapol (Thery) Kindt, East Hotel, Hamburg

Libbey provides the largest assortment of beer glasses to the foodservice industry. So you can give your entire beer offering unique presentations – whether craft brews or classic favorites.

The right glass for the right beer really does improve a beer's taste, aroma and aesthetic. Each of our glasses has been designed to maximize the flavor, aroma and presentation of the beer it contains.

Add some fizzazz to your glass!

Our exclusive laser etching after-process on the inside bottom accelerates the release of CO₂ creating increased effervescence that boosts the aroma and flavor of beer and promotes the retention of a nice foamy head.

GRAN SERVICE

TIME IS RIGHT TO PICK THE RIGHT CIDER GLASS

The time's always right to pair the right cider glass with a seasonal variety of apple, pear, pumpkin or even pineapple ciders. The trend continues to grow toward an upsurge in cider drinkers.

Be outstanding in your field—offer your cider-drinking guests our innovative Hard Cider glass featuring Fizzazz® technology that increases effervescence for more beer-like carbonation.

The bottom ridges of our cider glass design help release the fruity aromas intensified by the apple-shaped bowl and offer a comfortable grip.

HANDMADE^Θ
PITCHER

This item is handmade. As such, some small bubbles and other dimensional variations will be present. The capacities are noted as minimum ounce capacities and could vary upward considerably. They should not be used as a standard of measure.

These variations are inherent in the art of handmade glassware and should not be seen as defective. Please consider this prior to purchasing. Handwashing is recommended for handmade items.

CAREFUL HANDLING
AND USE IS REQUIRED WITH
FINE HAND-MADE PITCHERS

GLASS HANDLING TIPS

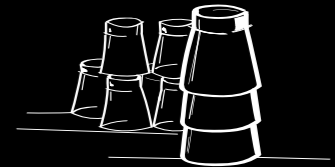

Why glass breaks

Glassware is one of the most important tools used in the hospitality industry. It is also one of the hardest materials around, yet under certain conditions it can also be fragile. The number one reason for glass breakage is improper handling. This guide presents you and your staff with insights into how to minimize breakage through proper handling of your glassware. By applying these tips you can save 20-30% on glassware costs.

Visit Foodservice.Libbey.eu/catalogs to download The Glass Handling Guide with more tips on preventing breakage.

TOP 3 REASONS WHY GLASSWARE BREAKS:

1. Stacking glasses which are not designed to be stacked can cause chipping.

Only stack glasses which are designed for this

2. Thermal shock when ice is added to a glass that has not reached room temperature after washing.

Thermal shock

Glass holds temperature, and a rapid change in temperature can cause enough stress to result in breakage. The main moments when thermal shock loss can occur are in the dishwashing cycle and when preparing drinks. To minimize loss always allow glasses to reach room temperature before and after they are washed and pre heat glasses that will hold hot beverages.

Mechanical shock

Mechanical shock in glassware is the direct result of contact with another object, such as a spoon, a beer tap, another glass, or a piece of china. This kind of contact can cause a minute abrasion, invisible to the eye, but a source of weakness in the glass, making it more susceptible to breakage from impact or thermal shock.

3. Mechanical shock caused by minute abrasions from contact with foreign objects such as cutlery and muddlers.

Allow glasses time to cool before handling them

Never put cutlery or other objects in glasses

Creating lasting memories with Libbey signature drinks...

Customers drink with their eyes. Choosing the right glass makes all the difference for great presentation and profit per serving.

Glassware is an investment that pays for itself after only one use. Decorate your glassware to promote your cocktail offering. Create specialty cocktails that appeal to your customers and build your brand.

Presentation is key! Prepare the drink in front of the customer to create a sense of theatre and pizzazz.

Use regional and artisanal ingredients.

Mocktails or Virgin cocktails. Providing a wonderful assortment of non-alcoholic drinks can boost sales & profits.

Libbey signature drinks are fun and lead to a memorable experience.
