Securit[®] LIGHTING

The new standard
in hospitality
Table lighting

EN

A photograph of a group of people dining at a restaurant. In the foreground, a man with a beard and a blue blazer is smiling and holding a glass of white wine. To his right, a woman with curly hair is also smiling. In the background, another man is partially visible. The table is set with glasses, plates, and a small black table lamp. The background is softly blurred with warm, bokeh lights.

Illuminate
good times

Built-in battery

Create a beautiful setting with a beautiful table lamp. But of course you don't want to ruin it by ugly cables.

Securit® table lamps have an easily rechargeable built-in battery so your guests can enjoy their evenings for hours and hours, anywhere.

Dimmable

Every restaurant has its own unique lighting set-up. Which also means that in many cases a standard lamp could be too bright or too dim.

Set the perfect ambiance for any table with the Securit® Dimmable possibilities.

Water resistant

When there are people having fun, drinks get spilled. When there is sunshine, eventually there will be rain. But who wants to worry about that?

The Securit® table top lamps are resistant to weather conditions.

2-year warranty

We believe in the quality of our lamp range. To prove that we have given an impressive 2-year warranty on all our lamps.

Quality guaranteed.
